

Anatomy of Seed

How does a startup access seed capital?

Brendan Baker

This graphic is part of an towards an Oxford thesis:
The Changing Early Stage Capital Ecosystem: Intermediaries and Network Microdynamics in Startup Funding
 December 13, 2010
 Supervisor: Marc Ventresca

Each node/bar combo is one actor:

first introduction —●— rejection

There are several types of actors:

- VC ●—●—
- Seed Fund ○—●—
- Angel ●—●—
- Angel Group ○—□—
- Corporate ○—x—
- Institution ●—●—
- Middleman ○—○—

Bigger bubbles are successful investments:

Each gray line is a new introduction:

And each dotted line ties together different actions by the same actor:
